## Section 9 : HEALTH HAZARDS

The identity of the individual components of this mixture is proprietary information and is regarded to be a TRADE SECRET.

In accordance with 29 CFR 1910.1200 we have to assume that the mixture presents the same health hazards as the individual components when they are present at greater than 10% concentration.

Listed below are the health hazards for all of the materials present of 10% concentration and that undiluted have health hazards associated with them. Please note that not all the components of the mixture have health hazards associated with them. In the event of medical emergency the identity of all the components will be divulged to a qualified health professional.

The following effects we concluded as a result of laboratory testing on one or more of the individual components. The relevancy to the mixture or to humans is unknown. Excessive exposure may cause similar effects.

REPEATED DAILY DOSES ORALLY CAUSED MINIMAL DAMAGE TO NERVOUS SYSTEM.

REPEATED DAILY DOSES OF LARGE AMOUNTS CAUSED MINOR LIVER DAMAGE.

REPEATED DAILY ORAL DOSING OF LARGE AMOUNTS CAUSED MINOR KIDNEY DAMAGE.

REPEATED OR DOSING INCREASED OCULAR TENSION.

REPEATED DAILY APPLICATION TO SKIN CAUSED NO REPRODUCTIVE EFFECTS.

The following effects were concluded as a result of human testing and observation of one or more of the individual components.

LIQUID MAY BE IRRITATING TO EYES.

VAPOR MAY BE MILDLY IRRITATING TO THE SKIN AND EYES.

APOR IS MILDLY IRRITATING TO THE THROAT AND LUNGS.
